

COVID Safe Isolation Room & Kit Information and Guidelines

Youthworks Conference Centres are committed to being COVID Safe and we have therefore implemented the following processes.

As per the Department of Health's information, symptoms of coronavirus may be:

- Fever
- Respiratory symptoms
 - Coughing
 - Sore throat
 - Shortness of breath

Other symptoms can include runny nose, headache, muscle or joint pains, nausea, diarrhoea, vomiting, loss of sense of smell, altered sense of taste, loss of appetite and fatigue.

To stop the spread of COVID-19 people with even mild symptoms of respiratory infection should get tested.

Youthworks has allocated an appropriate isolation room, as shown on your room planner, should the need arise. When someone starts to show or experience symptoms of the coronavirus, and they cannot be immediately evacuated from the centre for testing and or medical treatment, they are to stay in the allocated isolation room until an appropriate evacuation plan is able to be enacted.

Youthworks staff will be able to assist you in locating a suitable / local testing clinic.

Please alert Youthworks staff if the Isolation Room Kit is required.

This Isolation Room Kit will be provided for you and your group as a precaution if one of your guests shows symptoms of the coronavirus after arrival on site. The Isolation Room Kit contains:

SIGNAGE

- COVID 19 Isolation Room occupied sign
